

Ascham Year 11 2026 | Textbook and Stationery List

The textbook list offers a choice of the type of book your daughter can use. For some publications all the options may not be available. The textbook list indicates which of the following options will be available:

Print & Digital eBook combination

Print & Digital eBook combination. Students will receive a hard copy of the text however if ordering through Champion they will not need to set up their digital component – Champion will set this up in the MyConnect2 app. Students will need to download the latest version of the Champion MyConnect2 app to access these texts in the digital format. Students who already have the MyConnect2 app can simply update it, and their e-texts will appear.

Campion's MyConnect2 eTextbook App

By selecting this option students can have their textbooks saved in the one app on their device. Once logged in, the student can download a copy of the textbook to their device, hence eliminating the need for internet access. Students can highlight, make notes and bookmark pages, as they would in a printed textbook. MyConnect2 works on desktops, laptops and tablets. Some textbooks on the MyConnect2 app will also be available as an interactive version. To access interactive versions the student will require internet access. To access textbooks through MyConnect2, students will need to download the MyConnect2 app onto their device. Champion will then set up access and passwords which are emailed to the student. Textbooks available on the MyConnect2 app are only licensed for that user for either one year or two years for Stage textbooks.

NB - If subjects are not listed then textbooks are not required.
